REACH DECLARATION OF CONFORMITY

The Law on Chemicals, REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), entered into force in June 2007. The aim of REACH is to improve the protection of human health and the environment through earlier and more substantial identification procedures of the properties of chemical substances.

Regarding the current state of information and that of our suppliers, Rade Koncar Kontaktori I relei confirm that none of its products or packaging contains any of the Substances of Very High Concern (SVHC) on the REACH Candidate List, in a concentration above the 0.1% weight allowable limit.

The latest 240 substances restricted by the REACH Regulation were last updated January 23rd, 2024. Please refer to the following for the most current candidate list of substances: <https://echa.europa.eu/candidate-list-table> Substances of Very High Concern (SVHC) – Annex XIV as of January 23rd, 2024, ECHA (The European Chemicals Agency) has placed 5 new substances in the Candidate List of Substances of Very High Concern (SVHC) for authorization. Any SVHC must not be used, manufactured, or imported without the prior authorization of the ECHA.

If necessary, should the substance composition of our products change in such a way that SVHC candidates >0.1 by mass percent are added, we will of course comply with the obligation to inform our customers in accordance with Article 33 of the REACH Regulation without being asked.

Sincerely yours

Velibor Ivanovski, general manager

Skopje, 28.06.2026
