UL DECLARATION OF CONFORMITY

Declaration of Compliance according to UL 60947-4-1:

We, RADE KONCAR Kontaktori i Relei DOO, declare under our sole responsibility that our electrical products belonging to the CNNK Series are engineered, manufactured, and tested in accordance with the underlying technical safety and performance objectives equivalent to the North American Standard: UL 60947-4-1 (Low-Voltage Switchgear and Control gear - Part 4-1: Contactors and Motor-Starters - Electromechanical Contactors and Starters).

Harmonization & Expert Third-Party Certification done by IECEE CB Scheme / TÜV:

The technical compliance of the CNNK Series with the requirements of UL 60947-4-1 is structurally substantiated and validated through full testing and certification according to the internationally harmonized global standard: IEC 60947-4-1 / EN 60947-4-1. The products have undergone official laboratory testing and possess valid IECEE CB Scheme Certification in cooperation with accredited TÜV Rhineland testing bodies. Furthermore, the factory design, manufacturing, and assembly processes operate under an active G-Certi Certified Quality Management System conforming to ISO 9001:2015.

Plastic & Critical Insulation Materials with UL YELLOW CARDS:

We further declare and guarantee that all critical raw plastic materials, enclosures, structural components, and internal electrical insulation compounds utilized during the production of the CNNK Series contactors hold verified and active: UL Yellow Cards (UL Recognized Components). These materials are fully traceable, tested, and listed within the official UL Product iQ database, explicitly meeting strict flame-retardant - UL 94, thermal stability, and comparative tracking index (CTI) values required for safe industrial control installations in North America.

Sincerely yours

Velibor Ivanovski, general manager
